

Editor-in-Chief
International Journal of Cancer Therapy and Oncology

August 22nd, 2016

Dear Sir

We would like to submit a manuscript entitled “Anti-tumor effects of interferon-beta cell therapy in murine model of melanoma”. In this study we successfully demonstrated the strong anti-tumor effects by interferon-beta cell therapy against melanoma model.

This work was supported by research grants from Research Project of Kitasato University Graduate School of Medical Sciences.

All of authors has not been financially supported, except above listed grant for this project.

Recommended reviewers;

Dr. Masahiko Nishiyama
